

## Care Act 2014

New responsibilities and implications for local authorities, adult care providers, safeguarding boards, people who use services, carers and their advocates are introduced by the Care Act 2014, which is one of the most significant changes to social care in the last 60 years. All existing care and support legislation is consolidated into one single, legal framework - the Care Act 2014. The aim of the framework is to create a care and support system that is driven by goals, needs and well-being.

New rights for carers are set out in the Care Act 2014 and the framework also puts an emphasis on prevention rather than cure, and introduces a national threshold of eligibility for care and support.

### Programme/Course Content:

Care Act 2014 training can be tailored to your specific requirements and setting. However, a typical Care Act 2014 training course would include:

- Introduction and overview of the Care Act 2014
- Information and advice
- First contact and identifying needs
- Charging and financial assessment
- Planning for person centred care
- Transition to adulthood
- Partnerships, cooperation and integration

Key Care Act 2014 changes and themes will also be considered during the bespoke Care Act training, for example:

- Well-being
- Information and Prevention
- Assessment and Eligibility
- Continuity of Care
- Personalisation
- Safeguarding
- Continuity of Care at Transition
- Promote Quality and Diverse Care Services
- New Model of Paying for Care
- Integration and Co-operation

**Aimed at:** Safeguarding boards, local authorities, registered care providers
